

# MX908 TRAINING VIDEOS

## System Setup & Basic Operational Checks

A review of the system setup and basic operational checks of the MX908

<https://vimeo.com/232504105/77e35f05c0>

## Trace Mode Sampling & Analysis

A demonstration of the proper techniques for collecting and analyzing trace samples with the MX908

<https://vimeo.com/232504111/314f18f776>

## Bulk Sampling for Trace Analysis

Simplified technique for sampling bulk powders for trace analysis on the MX908

<https://vimeo.com/344851674/9d3f3daf75>

## Advanced Trace Drug Sampling

Specialized techniques for sampling challenging drug samples for Drug Hunter analysis on the MX908

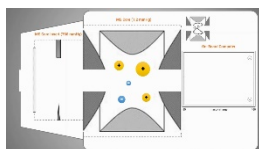

<https://vimeo.com/344854939/380023bfbf>

## Advanced Vapor Sampling

Techniques for using the captive sampling accessory and optional extended vapor probe with the MX908 vapor mode

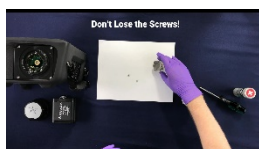

<https://vimeo.com/301843236/8d46f3e708>

## HPMS Technology

A brief overview of the MX908 High Pressure Mass Spectrometry technology

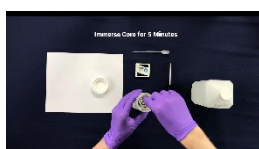

<https://vimeo.com/232504096/3fc4bece09>

## Replacing & Calibrating the MS Core

A demonstration of replacing and re-calibrating the Mass Spec Core of the MX908

<https://vimeo.com/232504100/6ec96e6e5c>

## Tier 1 and Tier 2 Maintenance

Procedures for cleaning the Trace Module and cleaning and unclogging the Mass Spec Core of the MX908

<https://vimeo.com/299444833/094f95ab94>

## MX908 Training Chemical Kit

Tips for practicing Vapor and Trace mode sampling in various Mission Modes on the MX908

<https://vimeo.com/345525213/8d48707f86>
